## DETAILED ACTION

### *Allowable Subject Matter*

Claims 1-26 are allowed.

The following is an examiner's statement of reasons for allowance: ✓

the allowability resides in the overall structure of the device as claimed at least in independent claims 1, 19 and 24 and at least in part, because of the following:

US 6,812,979 to Um discloses a color-separating apparatus having a spiral color filter wheel [3i] attached to the motor [17], but do not disclose a mount for motor attachment, a light integrator rod and an alignment mechanism configured to move the motor with respect to the light integrator rod in a first and a second directions to align the filter edge with respect to the output face of the rod.

US 6,702,446 to De Vaan et al. discloses a projection display device having a light integrator rod [13], a spiral color filter wheel [29] attached to the motor [31], but do not disclose a mount for motor attachment, a light integrator rod and an alignment mechanism configured to move the motor with respect to the light integrator rod in a first and a second directions to align the filter edge with respect to the output face of the rod.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
